Tried. Tested. Trusted.

Since 2002, thousands of successful online shops have trusted us with their businesses.

★★★★★

Best E-commerce platform

EKM has all the features that you'll ever need and the UK based support team are always on hand to answer any of our questions which non of the competitors offer. The platform is easy to use and the regular updates from the Evolution Team means our site never gets outdated. Would highly recommend!

Good Look Lenses

★★★★★

The support team are always on hand

My experience with EKM has been amazing! I have been supoprted through how to set up my own shop and customer service is fantastic! The support team are always on hand and its great value for money for my online shop! Its a fantastic service that really wants to help business grow!

Suzanne Locke

★★★★★

Exceptional service provided

I've been with EKM for over 10 years and they really are the best in the ecommerce business! Help and support is always available and the features you can install and use are brilliant. Exceptional service provided and they really want to help businesses grow. I would highly recommend to anyone starting a new business.

Frequently asked questions

How long does it take to set up?
We can get you set up in minutes, literally! Simply open it up, add or import your products and services and you're ready to go.

What happens after the free trial finishes?
At any point during your trial you can enter into the full plan. After the 14 day trial is over you will need to supply your billing details to continue using your Account.

Can you explain the pricing structure to me?
This plan includes up to £300k annual turnover. An additional charge of £100 per month is included per additional £100k turnover. After £1m turnover, it's £100 per month per additional £1m. For more explanation see the pricing guidelines.

Are payments included?
Yes, accept card payments wherever and whenever your customers are shopping with our embedded payment products. With fast processing, easy setup and a seamless integration, **EKMPay** will save you time and money while offering a payment experience your customers will love.

What is EKMPay and how does it work?
EKMPay, powered by ClearAccept, is our very own payment solution which has been purpose-built for the EKM platform. It allows us to offer you the lowest rates available on EKM, with a standard rate of just 1.4% + 20p (plus VAT) and custom rates for £1m turnover businesses.

What help and support is available?
We will always be there at the end of the phone to help you with any questions you might have. You will have a dedicated full time Ecommerce Manager by your side to help you grow your online business. We also have a complete guide to ecommerce.

Do I need any web design experience?
No, our design team and ecommerce managers can help improve your design over time as and when you need to. You can customise your shop to fit your business perfectly, just add your new products and services when required and focus on what you need to. We can help and guide with the rest.

Is there a contract?
You plan comes with no contract involved allowing you to cancel at any time.

Is there a product limit?
No. We offer unlimited products so you can add products and product variants to your heart's content.

What features are included?
There are many features available at your fingertips we can help you with. These include; web statistics and sales analytics, customer relationship management (CRM) integration tools, accounting software integration, point of sale payment technologies, email campaign management and user storage facilities. For a full list and explanation of the features available see our feature guidelines.

What is enhanced design support?
On signing up we provide you with a full website experience, built in features and tools to get you moving. Full access to our Ecommerce expert managers. We monitor your website progress and provide you with useful update ideas and evolving design and functionality improvements to help your online presence and exposure.

Can customers shop on mobile devices?
Yes, the plan is mobile friendly by default, so your customers will have the same seamless shopping experience no matter what device they are browsing on.
